

RED Grants

Supporting a Diverse and Sustainable Business Region

Exmouth Chamber of Commerce and Industry

Completed August 2021

The GDC worked with Exmouth Chamber of Commerce and Industry to fit-out the Exmouth Business Hub, providing a physical space for local small business as well as visiting service providers. The provision of shared services supports start-up businesses with a lower cost structure, and the presence of other businesses enhances collaboration and innovation.

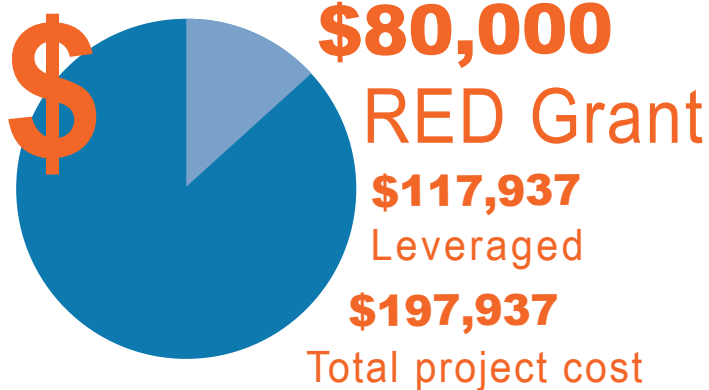

2 new jobs

6 long-term lease holders

20+ workshops facilitated

80% increase in collaboration with local business and contractors

“Our vision as a Chamber is to become a reliable organisation that can represent its members effectively with robust and meaningful capacity building initiatives, support and representation through local, state and federal governments. To achieve this, creating revenue streams and a home for the Chamber was essential. Since our initial discussion with our funding partners in 2019, we have managed to secure over \$1.2million to support local businesses and local community initiatives.”

David Gillespie, ECCI President
