Food for the Mob On-Country Kitchen

ABC Foundation Ltd

Completed April 2022

The ABC Foundation delivered a mobile meal service to address food insecurity in the region, as well as delivering commercial on-site indigenous catering, training and employment for disengaged Aboriginal people and youth.

While the project initially focused on reducing food waste from Carnarvon plantations to create low-cost healthy meals, the ABC Foundation also provided emergency relief in conjunction with their community partners across the Gascoyne and Mid-West regions during Covid-19. In total they provided over 26,000 hot meals at no cost and additional low-cost meals to those experiencing food insecurity.

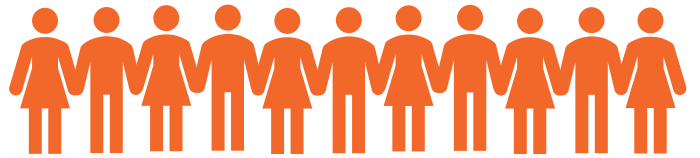

1 food van purchased

2 full time jobs created

11 casual employees engaged

Ongoing training provided for Food for the Mob chefs.

Delivers over 150 meals each week to those in need.

"The project has given staff the opportunity to develop many skills in the kitchen, customer service through serving customers, plus also skills with meal prepping and ordering stock. Now that the van is in use, this will be an additional training space for staff."

Alison Sentance, ABC Foundation
