

# RED Grants

## Shark Bay Early Years Multi-Age Complex Ngala Children's Services

Completed June 2021

The project involved the construction of a new daycare complex to operate education and care and other community programs focusing on children up to five years in age.

The facility is managed by the Shire of Shark Bay and meets the growing need for childcare in the area by supporting working parents, enabling them to return to the workforce.

### Commission's role

GDC supported Ngala Children's Services and the Shire of Shark Bay with the construction and ongoing operation of the facility.

**1** direct job created  
**3+** local residents returning to the workforce

**8** children can be cared for each day

**10** families using the facility

*"The building is purpose built, designed to allow the service to work with the environmental and climate challenges, as well as for flexibility as the needs for the community changes."*

Kate Pitt, Operations Manager Early Education & Development, Ngala Children's Services
